"Baxter's Barley-Bree"

THIS well-known and justly celebrated Brand of Old Scotch Whisky is never sent out from the Proprietor's Bonded Warehouse till it has attained an age of at least Seven Years. It is generally, however, considerably older than this before it actually reaches the consumer.

The following Certificate of Purity, under the Act of Parliament of 1875, is a recent Report upon it:—

LABORATORY OF PUBLIC ANALYST,

Aberdeen, 4th July, 1885.

"I have examined a sample of J. R. Baxter's Barley-Bree Scotch Wh'sky, and I hereby certify that it possesses all the properties of a Fine Pure Scotch Whisky. It has a moderate amount of strength, and is free from Fusel Oil. I consider this Whisky of excellent quality. It is evidently thoroughly matured."

Signed, G. D. RAILDOUGALD,

Fellow of the Institute of Chemistry: Public Analyst for the County of Perth, and the Burghs of Dundee, Forfar, Montrose, and Arbroath.

☞ *The Public should insist upon getting this Whisky, and should take no other. They will find it the best and purest extant.*

TODAY'S TELEGRAPHIC NEWS

Associated Press Despatches to The Times.

THE TIMES OFFICE,

Victoria, 4:00 p. m., Nov. 19

THE BRITISH IN BURMAH.

LONDON, Nov. 18.—The British forces in Burmah have carried the forts in the vicinity of Minhla and captured another fort, after three hours firing from the floating batteries, the armed launches and heavy guns on board the steamers. The British lost four men killed, and twenty-seven wounded. Minhla was the most strongly fortified position on the river, and by its capture the way cleared for the British advance on Mandalay, as the forts at Ayala, twelve miles from the Burmese capital are only slight structures in comparison to those at Minhla.

A DESPERATE FIGHT.

BELGRADE, Nov. 18.—The Bulgarians, after desperate fighting, have carried one of the Servians' positions, which was menacing Slivetzna. Prince Alexander led the Bulgarian columns in person. The official report from the front states that the Servians entered Bresnik yesterday. The town had been abandoned by the Bulgarians, who left eight guns. The capture of Bresnik leaves the route open to Sofia. The Bulgarian army of the Widdindesh may be considered completely destroyed and dispersed. A dispatch relative to the engagement near Slivetzna says, that after heavy fighting Prince Alexander was forced to retire to Slivetzna. Both sides lost heavily. Sharp fighting has occurred on the left across hold their position. The Bulgarian force at Widden has blocked the Danube river.

THE CAPTURE OF BRESNIK.

BELGRADE, Nov. 18.—Further details of the capture of Bresnik state that the Servians carried eight lines of entrenchments, and captured 161 prisoners, with a number of rifles. The Bulgarian commander at Bresnik left his military papers behind him. The Bulgarian volunteers, with their leader, also fled.

THE U. S. NAVY AND THE COAST DEFENCES.

NEW YORK, Nov. 18.—A Washington special says the President has called on the State Department for a full statement of our relations with Germany and with Austria in regard to the treatment of naturalized citizens of the U. S. in these countries. It is understood the President has determined that the U. S. shall no longer remain inactive upon this question. In the event of Germany and Austria ignoring our protest, it is believed a severance of all diplomatic relations with these countries would rapidly bring about a crisis. It is not probable that the President will mention the trouble in his message, but he will make powerful suggestions about the need of a new navy, and the alarming condition of our coast defences.

EXPLOSION AT PHILADELPHIA.

PHILADELPHIA, Nov. 18.—An explosion occurred at the Philadelphia Lubricating Works, at Millin street which, by which 13 men have been severely burned, one man was instantly killed, while four others are so seriously injured that they cannot possibly recover.

GLADSTONE'S REPLY TO PARNELL.

EDINBURGH, Nov. 17.—Gladstone, in a speech to-day, said: "I have already pointed out in my former address that it is very possible that by an overwhelming majority of her members the Irish nation might present some demand. I expressed confidence, however, that Ireland would never forget her duty to the union and empire, though she might present a demand for a large change in management in local affairs. Any demand of this character, I declared, ought to receive the attention and respect of parliament. Since that declaration Mr. Parnell has conveyed to me, through the confidential medium of the newspapers, a suggestion that I had better frame a plan for the local government of Ireland. I propose now to reply to Mr. Parnell in an equally confidential manner. Doubtless you gentlemen will not mention it; perhaps my friends at the table below (meaning reporters) won't mention it; but my reasons for not complying with Mr. Parnell's request are that though Ireland wishes and deserves respectful and favorable attention, yet until the elections the Irish wishes are constitutionally unknown. I believe Mr. Parnell me claim me for a person wanting in experience in public life, or one who has not profited by experience. If he imagines me rash enough to make myself a voluntary physician for the people of Ireland, instead of the authorized doctors he sends to the House of Commons, it would seriously damage the proposal hatched in my mind if the Irish constitutional question should arise. If a proposal be made it can only be effectively made by the government, although the government is rather silent on the subject, and appears disinclined to use language calculated to render less easy their relations with the party to whom they owe much through the transactions of the last parliament. If the present government continues every member of the opposition will require to hear their views before expressing his own. Thus it is impossible to accede to Mr. Parnell's invitation." The remainder of the speech was devoted to a rapid review of the various leading topics, including foreign affairs and disestablishment.

The German army estimates show an increase of $4,000,000. The total expenditure is estimated at $62,500,000, of which $26,875,000 will be covered by a loan.

The through traffic, both passenger and freight, between Montreal and Winnipeg is surpassing previous expectations both ways. Extra cars have often to be added on the trains at Carleton Place junction in order to meet passengers from Toronto.

The Railway Department is having an immense map of the Dominion of Canada, 24x12 feet, prepared, which it is intended to send to the Colonial and Indian Exhibition next year. It was ordered by the Department of Agriculture, and is intended to be the best that has yet been drawn.

Rev. Dr. John Hall is one of the wealthiest clergymen in New York. He receives a salary of $30,000 and many presents. He is paid $10,000 a year as Chancellor of the University of the City of New York, and receives $12,000 a year from the Ledger for one short article a week. Other literary work brings his annual income up to about $100,000. Seventeen years ago the Doctor preached in a Belfast, Ireland, Presbyterian church at a salary of $2,500 a year.

CITY COUNCIL.

The regular meeting of the Council was held last evening. Present: Mayor Bethel, and Councillors McKillican, Smith, Earle, Braden, Grant, Ward and Warner.

COMMUNICATIONS.

From Wm. Atkins, asking for a footpath on the south side of Montreal street to Dallas road. Referred to Street Committee to report.

From S. T. Styles, applying for use of a portion of Cormorant street for building purposes. Granted.

From Pendray & Co., referring to the need of a sidewalk on Humboldt street. Referred to Street Committee to report.

From Edward Abel, reporting that he had canvassed James Bay ward for signatures to a petition appointing him as a special constable, but he had only obtained 25 names, guaranteeing $2 each per month and asking the Council to supplement the amount by a grant.

Councillor McKillican moved that the sum of $50 per month be paid.

Councillor Grant favored the idea of giving a grant for this purpose, and suggested that a private detective, who would be unknown to the public, would be of great service at the present time in ferreting out crime. He seconded the motion.

Councillor Braden spoke in favor of the grant.

Councillor Earle said he understood that two special policemen had been temporarily appointed. The recommendations made by the committee some time ago should be carried out in full. The citizens of James Bay should not be required to pay the sum of $25 per month.

Councillor Ward moved, seconded by Councillor Earle, that the applications for positions on the force be taken up at next meeting. Carried.

From W. J. McDonald, reporting that the wooden culvert on Dallas Road was rotten, and recommending its repair. Referred to Street Committee.

REPORTS.

From Sergeant Flewin, reporting a number of nuisances. Report received and the usual notices ordered to be served.

From the Street Committee, reporting in reference to the application of residents of Caledonian Avenue for a sidewalk, and recommending the work to be done. Report received and recommendations ordered to be carried out.

From the Special Committee appointed to confer with the fire department in reference to the transfer of the management of the department to the Council, setting forth that the time proposed for taking over the control of the fire department be fixed at from the 1st of January, 1886, instead of the 1st of December, 1885, as previously decided upon by the Council; also recommending that the Tiger engine and apparatus at present kept in the building adjoining the City Hall, be removed to Deluge engine house, and the City Hall building would be at the disposal of the city for municipal purposes.

Councillor Ward moved the adoption of the report. When the committee went into this matter, it was not aware that a by-law would have to be submitted to the people, but the City Solicitor says such a course will be necessary. Seconded by Councillor McKillican and carried.

BY-LAWS.

Councillor Braden moved, seconded by Councillor Ward, that the Sanitary by-law pass its first reading. Carried.

Councillor McKillican moved the first reading of the Youths' Moral By-law. Seconded by Councillor Ward and carried.

The council went into committee of the whole on the Fire Department By-law, Mr. McKillican in the chair.

The by-law was read clause by clause and amended. The committee rose and reported.

Councillor Ward moved that the report of the committee be adopted. Carried.

The by-law then passed its first reading.

Councillor Ward moved that the voting on the by-law take place on the 1st of December and that Mr. Bull be appointed returning officer. Seconded by Councillor McKillican and carried.

Adjourned at 10 p. m.

FIRE DEPARTMENT.

The By-Law to be Ratified by the People—Its Provisions.

The by-law to be passed by the City Council in taking possession of the volunteer fire department, and for regulating the same will be submitted to the electors for their approval or rejection on the 1st of December next. It was not expected that a popular vote would be required to complete or legalize the transfer of the department, but the opinion of the City Barrister is that the approval of the electors must be secured, as the expenditures contemplated and provided for under the by-law are of an extraordinary character, and as such cannot be made by the Council. Power is given by the Municipality Act, 1881, to councils to pass by-laws for electing fire engineers and appointing firemen, and promoting fire companies, etc., but no such by-law can have force or effect unless it contains provision that the Chief and Assistant Engineers be triennially elected by the ratepayers nor until the by-law has been approved by the ratepayers. For these reasons, the by-law will be submitted to a vote on Tuesday, Dec. 1. Its provisions, briefly summarized are:

1. The department shall consist of a Chief Engineer and Assistant Engineer to be elected, and three Foremen, two engine drivers, twelve hosemen, six hook and ladder men, and reserve men.

2. This clause provides for the election annually in December for the election of the Chief and Assistant, in like manner as upon the election of a mayor. Every person rated upon the assessment roll of the city on the January previous to such election, will have a vote.

3. The Chief and Assistant will hold office until their successors are elected or appointed.

4. In the event of the Chief or Assistant resigning, or dying, the Council can appoint a successor.

5. All the other men in the department shall be appointed.

6. The salaries to be paid are: Chief Engineer, $700 per annum; Assistant Engineer, $300; Foremen, each, $150; Engine Driver, each, $720; Hosemen, each, $120; Hook and Ladder men, each, $120. The two latter to receive 50 cents an hour in addition while engaged at a fire.

7. The Council resumes possession of all the real and personal property of the department, &c.

The following five clauses refer to the administration of the department.

As stated in the report of the committee, the new arrangement is largely experimental, and doubtless many improvements will suggest themselves from time to time. The election of the Chief Engineer, under the new order of things, will be a bad system, and should be changed. The man who holds that responsible position should not be dependent on ward politicians, or party cliques or rings, for his official life. Under the present system, it is true, he is elected, but it is by members of the brigade, from whose ranks he must come; he enjoys a man of some experience, and is better than the popular vote of the whole city, to which the selection is relegated by this by-law. In the discussion evoked last evening, this point was mentioned, and there is no doubt that at any early day a radical change will be made.

GRANVILLE AND COAL HARBOR NOTES.

SCHOOL ATTENDANCE.

The attendance for the month of October was very regular and average, averaging high. As the school building is already overcrowded no marked increase has been shown from September. It is a pitiable condition of things, when a dozen children, anxious to attend school, are debarred from receiving an education, because there is not accommodation in the school room for them. They averaged 47 pupils, ranking as follows: Fifth class—1st Ernest Miller, 2nd Edith Cordiner; 3rd Edwin Miller. Fourth class—1st Ada Blair, 2nd Bevere Mannion, 3rd Annie Stewart. Third class—1st Annie Moore, 2nd Sydney Gregory, 3rd Joseph Hall. Second class—1st Lottie Reid, 2nd Cora Cecil, 3rd Jemima Reid. Second primer—1st Maria Reid, 2nd Florence Gregory, 3rd Mabel Blair. First Primer—1st Wah Chong, 2nd Estella Soule, 3rd Bertie Gregory. The government must give attention to our school accommodation at once, as it is certain the school population will increase now very rapidly. Families are coming in and new houses tenanted as fast as they are erected.

THE NEW ROAD

is in a disgraceful state. The error of building a mud road, without being sufficiently rounded and raised in the centre to let the water run into the side ditches is now apparent. The Granville trail is impassible; the wheels of conveyances descend to the very hub in the mud, rendering it necessary to use the Hastings road. The Provincial Secretary should come over the road for a trip. It may be that a load of gravel deposited at stated intervals would be the means of bringing him a few votes, for it is his belief that the electorate are purchasable by even promises of this nature. When the road is most in demand it is useless in consequence of the wretched way in which the government allowed it to be constructed. The whole was a "job" of the most barefaced description.

NEW BUILDINGS

are being erected in every direction. The visit of the General Manager and directors of the C. P. R. Company, and the decision arrived at between the land syndicate and the railway company has had a very stimulating effect on property, and has given the people confidence as to the future of the Coal Harbor peninsula. Messrs. Brighouse, Fraser, Merrick, Douglas and others are arranging to erect blocks, after the holidays, when the streets can be clearly defined, for business purposes. One or two prominent wholesale firms in Victoria are about to change their base of operations. It is also known that several of your retail firms are on the look out for premises. One prominent dry goods gentleman has already made his choice. The hotels and boarding houses are crowded, and still they come. SENEX.

GRANITE CREEK.

What Mr. Alex. Coutlee Thinks of the New Diggings.

Mr. Alex. Coutlee is an old and experienced miner, and well qualified to pass an opinion on the present prospects of the new mining camp in Similkameen. He has passed several months at Granite creek, engaged in mining and in business, and when asked what he thought of it, replied: "It is the biggest thing ever struck in British Columbia, not excepting Cariboo. It may not be so rich, or last so long, as Williams creek, but it is a better poor man's camp. Every person engaged in mining, took out money. It is easily worked, readily accessible and supplies being cheap, a man can live there for as little as in Victoria." Mr. Coutlee arrived on Tuesday, and came direct from the mines. When he left there were about 30 business houses, 30 miners' cabins and 50 tents in the town; while on the opposite side of the creek, 25 or 30.

NEW BUILDINGS

were being constructed, near some new claims that were being developed. About 900 men were still there, but this number would be reduced to 400 or 500 before the winter fairly set in. Captain Shelbourne's claim was still working and yielding its average of $400 per day. This claim extends for 500 feet and may last for years, as there are still eight feet of gravel before bed rock is touched. The South Fork Company, in which Mr. Coutlie is interested and the only one having a flume on the creek, was taking out $50 to $75 per day to the hand. The Cariboo Company, just starting, has commenced a shaft and were sanguine of striking it rich. Prospectors, who had left their claims on Bear creek, ten miles distant, were going back again, and something good may be expected from there next spring. One company was working

ON COLLIN'S CREEK,

four miles from Granite Creek, all summer. The bench claims on Copper Creek, twenty miles off, will be worked by hydraulics next summer; and on Granite Creek, after the bed has been worked out, the hillsides can be remuneratively worked for many years to come. Near the town, several well defined ledges have been discovered, and the opinion of Mr. Coutlee, as indeed of all miners who have visited the place, is that the whole district is as rich in quartz as it is

IN ALLUVIAL GOLD.

Granite Creek has been taken up for twelve miles, and claims are still being recorded. Snow is lost of March and the middle of May, is the season of low water, and during that time Mr. Coutlee predicts an enormous quantity of the little yellow nuggets will be taken from their hiding places among the gravel of these mountain creeks in the Similkameen.

A Cairo despatch says the appointment of Moukar Pasha as Turkish commissioner to Egypt greatly delights the Egyptians and also the Henry Drummond Wolf, the British agent. The commissioner, it is expected, will make a lengthy stay in Egypt.

LETTERS TO THE EDITOR.

A DISSATISFIED RATEPAYER.

To THE EDITOR OF THE TIMES:

SIR,—I notice that the government are offering for sale some lands on English Bay and they have it in the advertisement as in Vancouver City. I would like, Mr. Editor to give you my experience with the government, as it may prove a warning to others. You will remember that not long since the local government advertised lands for sale at the terminus, by auction, and at that time it was stated the terminus would be near Hastings, on Burrard Inlet. I, among others, bought lots there and paid big prices on the representation that it was at the terminus of the C. P. R. Now the government are advertising property they say at Vancouver, but it turns out to be at English Bay, three miles from Vancouver city, and about five miles from where they sold property before, and advertised it as at the terminus, near Hastings. Now, as I am a poor man, and cannot afford to be gulled in this way, by such misrepresentations, would you kindly let me know, Mr. Editor, cannot the government be held responsible as well as an individual for making such misrepresentations? It feel it looks to me like obtaining money under false pretenses. As I stated before my means are limited, and I cannot afford to lose. There may be many more in the same fix, and if this species of deception be carried on much longer the name of government in British Columbia will be looked upon with as much distrust as is some of its members at present.

RATEPAYER.

BLIND TO THE PUBLIC'S INTEREST.

To THE EDITOR OF THE TIMES:

SIR,—As foreshadowed by one of your correspondents last Saturday, that the local government would have to do something for David, I see they have proposed to offer some of their lands on English Bay, by auction; no doubt to satisfy the disappointed ones. The ink on the agreement made with parties interested at Vancouver is hardly dry, when we hear of the government offering lands for sale by auction. Are they not the custodians of the public's property? They propose to sell, before anything is yet established, the property at English Bay; or in other words give it away. We only need call to mind an unsuccessful sale of property by auction last winter which proved a failure. The property then offered was much more desirable than that now offered by the government. I can hardly believe that the government are so blind to the public's interest as to make such a sacrifice. What can they expect to realize on property two or three miles from Vancouver at present, when nothing much of a town is yet established. In six months or one year hence the property would realize at least double it would at the time they propose to sell. It is a pity that the government do not look to the interest of the public purse, rather than give away to a few hangers on like David, who would run any scheme that they may profit by.

BRITON.

GRANITE CREEK LICENSES.

To THE EDITOR OF THE TIMES:

SIR,—Can you tell me on what principle or under what law retail liquor licenses are issued on Granite creek? Many of those at present privileged to sell there are known in the province only as illicit whisky venders along the railroad line, while several old residents, who have kept saloons and hotels in the various parts of British Columbia, and against whom not one complaint has ever been made, have been refused licenses.

ENQUIRER.

Granite Creek, 10th Nov., 1885.

[NOTE.—"Enquirer" will have to go to the James Bay gentry for an answer. In our humble opinion they do not act on any principle and are not governed by any law.]

PERSONAL MENTION.

Mr. and Mrs. Lange returned home today on the Olympian.

Mr. and Mrs. W. K. Leighton, of Nanaimo, returned to-day after spending a few pleasant days of their honeymoon on the Sound.

Mr. and Mrs. A. J. McLellan were passengers by the Queen to-day for San Francisco. It is their intention to go as far as Los Angeles, where they will remain for a few weeks, returning home about the holidays.

Messrs. Fulton and R. G. Fleming, both railway officials, are in the city, having arrived by the Olympian this morning. The former is connected with the famous Albert Lea Route, and the latter with the Blue Freight Line. Both gentlemen are looking sharply after the interests of their respective lines.

Mr. W. H. Meade, of Portland, the genial and popular Portland agent of the Chicago and Northwestern Railway, is in the city. Mr. Meade reports his line as in a flourishing state. It is no wonder, for this line is one of the best equipped and most popular lines in the country. It is known as the "Royal" route, covering a right royal territory, including Chicago, Milwaukee, Minneapolis, St. Louis, Kansas City, &c.

The Olympian's passengers to-day: J Chandler, Mrs Lawrence and 2 children, D Hunter, V Gill, J Redmond, C S Smith, W K Leighton and wife, J Mollan, J Nelson, J A Cole, Mrs Powell, J Watson, W Harper, G W A Lange and wife, H Bernstein, J Hesbeck, J Tollyard, J Hessley, C Molson, E B Shucks, W Perkins, K Boslop, H C Eisenbeyer, A McKinnon, Miss Lemmont, Kennedy, C Hickson, C Paterson, T A Lowe, O A Hastings, R Lawrence, W Letheridge and wife, Mrs Jones.

The Princess brought the following passengers to-day: Mrs Richardson, Mrs Simmonds, E A Cunningham, W T Benton, G W Bradford, T D Jones, B D Cannon, A Stephenson, F V Hoel, Thos Hibbert, Mrs Hibbert, W M Ross, Orchard, S Greer, C E Hartnell, C Wilson, D Cunningham, T Cunningham, D B Calbick, Sutton, Pat Carr.

Fine Oysters.

A large bed of oysters has just been discovered by some Salmonas on the Island, the bivalves being larger and more delicious than any ever seen here. They are shipped direct to Joe Lewis, of the Arcade, on Government street, where they will be supplied to lovers of this luxurious dish.

Full & Co's fresh will be found superior to any in this market.

Ice at Brownell's, Yates street, is of the purest.

Big Good Harbor Jelly Fish were in Esquimalt harbor yesterday. [illegible]

The Daily Times.

PUBLISHED EVERY AFTERNOON (EXCEPT SUNDAY)

Victoria, Thursday, Nov. 19, 1885.

THE DAILY TIMES,

—Published daily and weekly by the—

VICTORIA TIMES PRINTING AND PUBLISHING COMPANY Ld.

OFFICE—Yates Street, next to Frank Campbell's Corner.

TRANSIENT ADVERTISING—Per line, solid nonpareil: First insertion, 10 cents; each subsequent consecutive insertion 5 cents. Advertisements not inserted every day, 10 cents per line for each insertion. No advertisement in this class taken inserted for less than 25 c.

REGULAR COMMERCIAL ADVERTISING, so distinguished from everything of a transient character—that is to say, advertising referring to regular Mercantile and Manufacturing Business—established at the following rate per line space of solid nonpareil, the duration of publication to be specified at the time of ordering advertisements:

More than two days and not more than one week, 7 cents.

More than one week and not more than one fortnight, 10 cents.

More than one fortnight and not more than one month, 8 cents.

No advertisement under this classification inserted for less than $1.00 each insertion; only for every day insertion.

PROFESSIONAL CARDS, classified, 20 cents per week for eight lines. No card inserted for less than $1.00.

Notices inserted amongst regular reading matter (Nonpareil), 15 cents per line for each and every insertion.

Where only one insertion is required, it must be marked in writing.

Advertisements unaccompanied by specific instructions inserted until ordered out.

Advertisements discontinued before expiration of contracted period will be charged the same as if continued for full time.

Special Rates for WEEKLY TIMES.

TO ADVERTISERS.—Changes for advertisements for the Daily edition must be handed in to this office not later than 10 a.m. on the morning of publication; otherwise insertion cannot be guaranteed.

Address, THE TIMES P. & P. CO., Victoria, B. C.

J. C. McLAGAN, Manager.

NOTES AND COMMENTS.

GEN. McCLELLAN'S family is well provided for, as he was in receipt of about $80,000 a year for several years.

LINCOLN county Council has resolved to establish an industrial farm, on which to support the poor of the several municipalities.

THE New York *Herald* has been beaten in a libel suit. A verdict of $50,000 has been rendered against that paper; the amount was promptly paid.

CAPT. JAMES GORDON, of Bothwell, Ont., hanged himself at the residence of his son-in-law at Florence. He was over 80 years and a great sufferer.

IT is announced that CLIFFORD LLOYD, Colonial Secretary of Mauritius, will eventually supersede SIR JOHN HENNESSY as Governor of Mauritius.

MR. JOSEPH HOBSON'S car (the chief engineer of the Grand Trunk Railway) registers the rate of speed and number of miles traveled, extent of gradients, etc.

HORACE B. CLAFLIN, the millionaire dry goods merchant, died Saturday afternoon at his summer residence at Fordham, N.Y., of apoplexy, aged 74 years.

THE DUKE OF WESTMINSTER has purchased for his daughter-in-law, the Countess of Grosvenor, the house lately occupied by SIR MOSES MONTEFIORE.

A Japanese Court has just set an example to civilization by fining an editor 27 yen for neglecting to acknowledge the source of extracts clipped from a contemporary.

THERE is a great wheat blockade at Minneapolis, Minn. Nearly 1,800 cars stood on the side tracks Tuesday, and 200 were in sight outside of the city. Daily receipts average about 125 cars.

GEO. B. REEVE, General Traffic Manager of the Chicago & Grand Trunk, has issued a circular announcing that E. H. HUGHES has been appointed General Western Passenger Agent of the Chicago & Grand Trunk, with headquarters at Chicago.

F. E. BRETT, Q. C., has been selected as candidate, in the Conservative interest, for the vacancy made in the representation of St. John by the resignation of SIR LEONARD TILLEY. The election takes place on the 24th inst. The Liberals have not yet named their candidate.

CHRISTOPHER TEEPLE, aged about 27 years, stopping with one PENSION, near Thamesford, Ont., got up out of bed about 2 o'clock in the morning, saying he had an awful pain in the stomach. He went to the barn and hung himself. Domestic trouble is supposed to be the cause.

HON. MR. THOMPSON, Minister of Justice, is confined to his room at Ottawa, through a severe cold. The hon. gentleman has left instructions at the department that he shall not be disturbed by interviews or under any other circumstances for the next few days. He has also ordered that the mails even shall not be sent to him.

THE Marine Department officials at Ottawa considered the Algoma fit to battle any lake storm. Deputy Minister Surtz is under the impression that the captain could not be well acquainted with the danger of the course, for the reef on which the vessel was wrecked is accurately shown on both the British Admiralty and American charts as running on the southeast shore of the Royal. The captain, he thinks, made a mistake in running in shore instead of keeping out, as the water in the immediate vicinity of the reef is over 200 feet deep.

THE DOWNES TABER scandal fills the Boston papers. PASTOR DOWNES, MRS. TABER and MISS DAVISSON demand a church investigation, and the prurient incidents of the scandal are likely to be further aired. DOWNES threatens to take the roof off the church over which he is pastor, and show up many ugly things. He says his salary has not been paid in six months, and that his family are without the necessaries of life. MISS DAVISSON publishes a statement in which she makes most serious charges against TABER, who instigated the proceedings against his wife and DOWNES!

WAR OF RACES.

MR. E. W. THOMSON, of Montreal, a well known contributor to the leading press of Canada and the literary journals of the United States expresses himself thus on the race question that is now being so seriously discussed in Montreal. Just as French Canadians have much to conserve by upholding the Dominion so have English Canadians. That the maintenance of the Dominion implies the retention of responsible government is sufficient reason for patriotism to all who believe in and are accustomed to its working. Again, to keep the most potent part in governing half the North American continent may well seem to English Canadians a higher privilege than to take a very insignificant share in governing nine-tenths of it. To hold these vast territories for or in friendship with Great Britain, may easily seem better than to pledge their present and potential forces to her possible antagonist. To have the central authority nearer than Washington will scarcely appear a trifling object to any who appreciate the difficulties of American centralization and are aware of the huge frauds practiced on the United States government in its more remote districts. To be free from the internal dissensions that the neighboring republic must face when north and south so different in products and therefore in interests, shall be fully populated, is no small prospective advantage. But there is a certain indignity in advancing even the best reasons for patriotism. It is a sentiment needing justification no more than does filial love. For men whose hearts are Canadian it is enough that the preservation of the Dominion seems good in itself. And it is clear that English Canadians can maintain the Dominion only by the complete acceptance of French Canadians as full partners in the government of the country, only by loyalty to the idea which the constitution embodies. This complete acceptance has long been practically given; when it shall be consciously and willingly given the union will be complete.

L'Etendard has urged one complaint so vigorously that it strikes English speaking men almost as an insult. Yet the accusation is perfectly reasonable. It denounces as brutally insolent the proposal to Anglicize this province. And indeed it would be somewhat difficult to imagine insolence more naked than that which urges that two solemn treaties should be so set at naught—that of Great Britain with France at the Peace of Paris and that made so recently between French and English Canadians at the passage of the Confederation act. It is a thoroughly revolutionary proposal, as striking at the institutions for which both races have sacrificed vast treasure and some blood. A truly remarkable thing is to find among those who talk eagerly of "swamping the French" some advocates of Canadian independence. As well might they scheme to blow up the piers of the Victoria bridge by way of preparation for loading it more heavily. Not till French Canadians should have been fully convinced that English Canadians have no designs against the privileges for which they value British connection; not till they should have been expressly guaranteed those privileges by instrument is it to be conceived that they would pledge themselves to an independent Canada. And without the strength and the seaboard of Quebec an independent Canada would be totally impossible.

British Connectionists, Imperial Federationists, Independence Men—their roads at present lie close together. They are all to be advanced by cordial relations between the governing races. They will wish that each should be to the virtues of the other "ever kind, and to its faults a little blind." None but Annexationists can be served by the exacerbation of race prejudice. And the Canadian whose patriotism is broad enough for the situation, who fully grasps the meaning of the institutions under which he lives, and rises to the acceptance of the Canadian idea, will surely be no less sensitively Conservative for the privilege of one race than for those of the other.

THE BRITISH LEADERS.

MR. GLADSTONE'S journey through the north of England to Scotland may well be termed a royal one, for never did mortal man receive such an ovation as tendered to the ex-premier. His series of previous triumphs were entirely eclipsed. To his physicians he had pledged himself that he would not speak while *en route*, but everywhere enthusiastic crowds had gathered; he put his head out of the window every time the train stopped and addressed the people. At Edinburgh, on the 11th, there was extraordinary excitement. There was not an inch of room in the great station. People had even scrambled on the top of trains and on lamp posts. It was feared that the barricades would break down and MR. GLADSTONE would be in danger. There was the same scene on the street, and inside Albert Hall the enthusiasm was indescribable. MR. GLADSTONE'S voice was strong and clear. He looked well, only a little pale from the fatigue of the long journey. His first speech, however, must be confessed as causing some disappointment all round. There was nothing whatever new in it. Perhaps he is saving himself for a greater occasion later. The following three passages sum up his views regarding Liberal dissensions especially on disestablishment. He said: "Until we come to the points on which we differ, it would be folly, it would be madness, it would expose us to ridicule, if in anticipation of matters that are now far out of our reach, we were to refrain from giving effect to the common purpose with which we think the coming Parliament as well qualified to deal." On the Irish question he said: "We are all, every man, woman, and child among us, convinced that it is the will of Providence that these islands must be bound together in a United Kingdom from one end of Great Britain to the other. I trust there will not be a single representative returned to Parliament who for one moment would listen to any proposition tending visibly or sensibly to impair the unity of the empire." Within this limit he expressed himself strongly in favor of the greatest possible concessions. On the general political outlook, appealing to the Liberals to close their ranks, which it will be remembered, is the great object of his visit, he spoke as follows: I give this sentence *verbatim*, as a perfect example of MR. GLADSTONE'S later views, and style: "Even if other reasons were insufficient, the grave consideration of the probable demands that may be made upon Parliament for the settlement of the Irish question is a new and commanding reason why, standing shoulder to shoulder, uniting heart to heart and mind to mind, we should adhere to the great commission of Liberal policy, which we have received from two generations of statesmen entrusted with the confidence of the country, and should prosecute with every faculty we possess the work, arduous, indeed, as the work of governing this great Empire must always be, a work which we never can hope to fulfil to perfection, for that is beyond human power or human hope, but a work which, by fidelity and devotion, we may hope, so far at least to accomplish, that this generation shall stand worthily in comparison with those which have preceded it, and honorably in the recollection of those who shall follow it, as a generation that has labored heartily and well to maintain the fame and happiness of an empire than which the world has never seen one more great or glorious."

LORD SALISBURY'S late speech at the Mansion House last night was overshadowed by MR. GLADSTONE'S, but it was really excellent. He said that no settlement of the Eastern question, in defiance of the wishes of the subject population, could last. The people are asking why he does not apply this reasoning to Ireland. The *Times* says: "LORD SALISBURY'S foreign references will be welcomed by the nation as sound in substance, dignified in manner, and generous in spirit." The *Daily News* says: "What LORD SALISBURY had to say about Bulgaria will rather astonish the Conservatives of the old school. The Liberals, however, will be the last to complain at our Tory Prime Minister adopting Liberal doctrines and using Liberal language."

KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its taint through generation after generation. Among its earlier symptomatic developments are Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas, Purulent Ulcers, Nervous and Physical Collapse, etc. If allowed to continue, Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases, Tubercular Consumption, and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It has effectual an alterative that it eradicates from the system Hereditary Scrofula, and the kindred poisons of contagious diseases and mercury. At the same time it enriches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

is composed of the genuine *Honduras Sarsaparilla*, with *Yellow Dock, Stillingia, the Iodides of Potassium* and *Iron*, and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe AYER'S SARSAPARILLA as an

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest as well as the best blood purifying medicine in the world.

The Daily Times

Victoria, Thursday, Nov. 19, 1885.

HE HAD A DAISY.

An Undertaker Interviews a Reporter in Spite of the Latter's Protest.

[Detroit Free Press.]

"Come out through the back way and see my daisy!" he chuckled, as he rubbed his hands together.

"What gone into the funeral flowers business on your own account? Yet, after all, why not? An undertaker might as well furnish the flowers as the coffin."

"Come on. There—how does that strike you?"

"That's a hearse—a new one."

"But it's the daisy I was speaking of. Isn't she a beauty span and shiny?"

"Very nice."

"I should smile. It lays over anything of the sort in this town, and don't you forget it! Get in and lie down and let me bob the springs to show you how easy it rides."

"No, thank you."

"You go on! There's points about a hearse the public ought to know. Get up on the driver's seat."

"Excuse me, but I prefer a family carriage."

"Oh, pshaw! but you are too thin skinned. Just notice those springs, I tell you it will be a positive pleasure to ride above 'em. The dish of those wheels is absolutely perfect, and such a finish!"

"Yes, very nice hearse."

"You bet! Say, it will be a proud hour in my life when I hitch a span of white horses to that vehicle and prance around to the house of the late deceased. Lands but won't the other undertakers look blue! Say, feel of these curtains—pure silk."

"I'll take your word for it."

"Go on, now. Hang it, but when an undertaker puts up his cash for a regular daisy like this, you newspaper fellows ought to encourage him. I tell you that the old-fashioned way of carrying a body around in a lumber wagon and then gave on this! Just notice how these rear doors open to admit the coffin."

"Very handy."

"Handy! Why man, it's superb! Have you noticed the glass in the sides?"

"Seems to be very good."

"Good! Why, it's the finest in the world—the very finest! I wanted some thing to show off the coffin, and here it is. I tell you, the late deceased ought to feel proud to ride in such a vehicle. You may say in your paper that it knocks em all out. Say, how are you on styles?"

"What styles?"

"Coffins and shrouds, of course. Come in a minute. I've got a new thing in shrouds—something you are bound to appreciate, and I'm after a patent on a coffin with an air-receiver in it. Say! do me a favor. Let me enclose you in my new coffin and see how long the supply of air will last you. I'll bet a dollar——"

But the reporter had gone.

The Needle and Thread Plant.

[Popular Science News.]

The Agave Americana holds the place of Asiatic hemp and Egyptian papyrus. Ancient hieroglyphics were inscribed on the leaves, macerated in water and glued together as the bark of paper mulberry. Much attention has been paid to the manufacture of paper from its leaves. "The fabrication of this material is destined to be a great industry," says the "Catalogue of Mexican Products," owing to the quality and cheapness of the material.

The fibers of the leaves with the thorns at the end are a pled to manifold uses. The edges of the leaves are indented at each indenture is a spine. These spines are frequently so strong as to serve the Indians for nails. A needle and thread is also furnished the natives by the simple process of pounding the leaf so as to soften the pulp, then scraping the latter away, allowing the fibers with thorns attached to remain. These are dried by hanging in the sun a few days, and the Indian woman has her needle, which is smooth and not liable to rust; her thread to sew her coarse dress made from "petal flax" a textile fabric of this plant, prepared in the crudest manner, yet stronger than cotton which has gone through many processes of manufacture.

A rope is made from the fiber of the maguey which is used in the mines and for the cordage of ships on the western coast. The poorer classes of Mexico thatch the roofs with the leaves, and these being concave serve as gutters to conduct the water away from the eaves.

A Good Way to Prevent Cholera.

"I believe," said one of the pulpit men in his sermon, "it will attack the ill fed, the intemperate, the cloth bedlen, the people weakened by dissipation or fear. Other things being equal it will leave the strong, the obedient and the healthy. The real injunction is, Be not afraid. A cheerful man is protected against epidemics by the mere fact that he does not permit himself to fear any attack of the prevailing disease. I need not tell you to obey all the sanitary laws. Not only to make your houses and home clean, but also make them cheerful. Cheerfulness is a health giver. The man who strives for pleasure is not happy, while exhausting pleasures are more deleterious than wearying toil.

Next to an obedience to the ordinances of the board of health I would recommend the closing of all business houses on Saturday afternoons, the spending of Saturdays in such a way that there will be no Sunday morning headaches, and the spending of Sundays so that there will be no Monday lassitude. Inordinate pleasure kills more people than cholera or any other epidemic. Another health giver is a good conscience. The conscience burdened with evil, anticipated or accomplished, is a disorganizing element to happiness and health.

Not Handsome Men.

[Boston Budget.]

Now, handsome men have never been less popular in Britain, as was shrewdly remarked by a writer in The Diamond Wedding forty years ago, when explaining the unpopularity of Scott at that time in the Old Dominion. The favorites of the Virginians have generally been the reverse of handsome. Jefferson, Madison, Marshall, Monroe, Jack Taylor, and Stonewall Jackson bore little resemblance to the Apollo Belvidere. Washington himself was far from being a handsome man in his youth, although old age mellowed his stern features with the grandeur which Stuart has idealized for the delight of all coming generations. Albert Pike, it is true, was a very handsome man but the idiot of his people, and therefore an exception to the rule which is as old as Virginia is old by many years.

Lady Macbeth.

[Delta (Colo.) Chief.]

A scientist says that only the female mosquito draws blood. In this case in Delta, there are 9-3 females to every male, the latter of which simply comprises a war dance near the victim ear while Lady Macbeth does the bloodshed."

Everybody Studying English.

According to late advices from Japan every man of any means, and even the local officials in the Toyama prefecture, is studying the English language. It appears to be a general belief that those who do not know the English tongue are behind the times.

Affects the Heart Organs.

Sir Lennox Lawson, an English physician, finds that drinking and smoking affect the vocal organs, statistics for which have been "the best of a production of heart, which shows him that a finger should avoid alcoholic stimulants.

THE CONFEDERATE CAPITAL IN 1864.

Plenty of Food for Cash—Conscription of Negroes—Home Guards.

[Murray in Washington Republican.]

Contrary to the common belief, there was no lack of provisions or delicacies in Richmond at any time during the war, but the prices measured by gold dollars were simply stupendous. I do not remember that there was any actual suffering among the people, although food and drink were of course economically dealt with. I recollect also that there was a broad rim of no large proportions as to call for the intervention of the military, but the women, black and white, who were the chief participants, were of the lowest class, and were instigated not by want so much as pure devilry.

It is a curious fact that what are called the lower classes fared better, as far as provisions were concerned, than the officeholders or wealthier citizens. The salaries of the officeholders, both Confederate and state, were grossly inadequate to provide for their families, and the wealthier citizens at the outset of the war had invested, almost without exception, all their available means in the 6 per cent. bonds of the Confederate government. Those who owned slaves, by hiring them out obtained large returns, for labor was in great demand; but the trouble was that the Confederate authorities conscripted all able-bodied negroes as drivers of mule teams, laborers on the fortifications, etc., just as they conscripted able-bodied whites for service in the field, and the hire given to the masters was but a tithe of what could have been procured in open market.

Talk about Washington being a city of boarding-houses and restaurants, why it was not a circumstance to the Confederate capital. Nearly every house, and especially of people of limited means, was filled with lodgers, and nearly every other house was an eating-house. The poorer whites and blacks made money hand over fist by cooking provisions and selling them from stands on the streets and at the depots to the huge swarms of hungry people who were constantly coming and going. The population proper of Richmond was not a fourth of the vast crowd that daily and nightly congregated within its corporate limits. It was the Mecca of the Confederacy, and the pilgrimages made thereto were constant in their coming. Officers and soldiers, Jewish merchants, "exempts," blockade runners, refugees from Maryland and West Virginia and from counties of the state held by the Federals poured in a steady stream into the lap of the city, and the people of the city made their living, and, indeed, it may be said in many instances, waxed fat, in feeding and lodging the hungry horde.

The home guards, organized simply to defend the capital, comprised all the officials in the Confederate and state departments, and no man was exempt who was able to tote a rifle from behind a breastwork. These held no drills, but marched in a body, without regular order, to the breastworks when the alarm bell in the capitol square rang forth the warning peal of the approach of the enemy—so many strokes, I think.

Strange Burial Customs.

[Pacific Mail.]

The beautiful figures of terra cotta which reach us from Asia and Greece are connected with Greek burials in a very remarkable way. They are not placed in the graves in an orderly fashion. At Tanagra and Myrina they are seldom found entire, but broken in a purposeful manner. In early times men slew at the graves of departed chiefs their female kin or captive women to accompany them to the next world.

It seems, then, likely that these terra cotta women of the graves are the later representatives of these real women, just as terra cotta loaves of bread and fruits take the place of real food, and that they were thrown into the tomb to people the solitude of the grave and to furnish the dead man with pleasant companionship in the world of shades. This theory will account for the fact that there are scarcely any representations of bearded men among terra cotta images—they are nearly all of women and of boys—and for the custom of breaking the images the breaking taking the place of the earlier slaying.

A Sharper Tricks a Farmer.

[Detroit News.]

"Here, I wish you would show up those fly buyers on the market," said an old Fed ord farmer to a reporter: "I brought in a load of potatoes this morning and sold the lot to a glib young fellow for $10. I drove through a half a dozen streets and into an alley, where I unloaded the potatoes. He pulled out a roll of bills and, turning over the ends right before my eyes, counted two fives, a two and four ones. I never suspected anything wrong, and put the money in my pocket without counting it again, but afterward, when I wanted to use some of the bills, I found that I had but $11. The $5 was doubled over and hung it if the fellow didn't count the two ends under my very nose."

Congratulating the Appointee.

[Chicago Tribune.]

The citizens, irrespective of party, waited on him with congratulations. The first one was the mayor of the city.

"Mr. Van Hoorbeker," said his honor, "allow me to congratulate you on your appointment."

The Hon. G. Van Hoorbeke winced, but shook hands cordially. Then came the county judge and wished Mr. Van Hoorbeck much joy, followed by the sheriff, the chairman of the campaign committee, and the ward workers, who respectively accosted him as Van Hooterbeck, Humpback, Humbleback, and various other adornments more ornamental than useful, until the Hon. Mr. Van Hoorbeck grew so densely confused that he exclaimed:

"Gentlemen, pardon me but I must return home. I find out that I have left something there that is absolutely necessary for me to have."

"What is it?" they shouted in chorus.

"My own name," he slowly and solemnly answered. And when the Hon. Van Hoofbeker returned home and his wife accosted him as Van Hoofenfeffer, he swore a mighty oath that at the next session of the legislature he would have his name changed from Van Hosen Pfeffer to plain Gottfriedhouser von Stoodlestum, er.

Versatility in Detroit.

[Detroit Journal.]

A rough pine board attached to the outermost walls of a Michigan avenue place of business, contained the following unique announcement: "Langwidges taught fortunes told and pertaters." No more novel or ingenious combination of accomplishments or American citizens could be found. If the seeker went out on a still hunt with the lantern of old Diogenes. The man who is capable of ring ng the changes on the above unique combination for a livelihood stands a fair to fighting chance of one day becoming the parent of his country. He probably combs out the cowlings locks of the various "langwidges" in the forenoon, hoes around among an assorted lot of "fortunes" until it is time to knock off for supper, then fools with the loaded end of "seed pertaters" in the evening. Truly, this is a great and glorious country.

The Dying Patriotism.

[Chicago Tribune.]

Frank Buckland's biographer records that when the great naturalist lay dying, "God is so good," he said, "so very good to the little fishes. I do say, believe me, I would let their inspector suffer shipwreck at last. I am going on a long journey, where, I think, I shall see a great many curious animals. This journey I must go alone."

HOME ITEMS AND TOPICS.

—"All your own fault
If you remain sick when you can
Get hop bitters that cure—Pall."

—The weakest woman, smallest child, and sickest invalid can use hop bitters with safety and great good.

—Old men tottering around from Rheumatism, kidney trouble or any weakness will be made almost new by using hop bitters.

☞ My wife and daughter were made healthy by the use of hop bitters and I recommend them to my people.—Methodist Clergyman.

—Ask any good doctor if hop
Bitters are not the best family medicine
On earth!!!

—Malarial fever, Ague and Biliousness will leave every neighborhood as soon as hop bitters arrive.

—"My mother drove the paralysis and neuralgia out of her system with hop bitters."—*Ed. Oswego Sun.*

☞ Keep the kidneys healthy with hop bitters and you need not fear sickness."

—The vigor of youth for the aged and infirm in hop bitters!!!

—"At the change of life nothing equals Hop Bitters to allay all troubles incident thereto."

—"The best periodical for ladies to take monthly, and from which they will receive the greatest benefit is hop bitters."

—Thousands die annually from some form of kidney disease that might have been prevented by the use of hop bitters.

Indigestion, weak stomach, irregularities of the bowels, cannot exist when hop bitters are used.

☞ A timely * * * use of hop Bitters will keep a whole family In robust health a year at little cost.

—To produce real genuine sleep and child-like repose all night, take a little hop bitters on retiring.

☞ None genuine without a bunch of green Hops on the white label. Shun all the vile, poisonous stuff with "Hop" or "Hops" in their name.

PUBLISHED EVERY AFTERNOON EXCEPT SUNDAY.

Victoria, Thursday, Nov. 19, 1885.

CITY AND PROVINCE.

—GOSNELL'S HAMS will be ready in about six days.

—Only the best French and San Francisco candies at the LONDON BAZAAR.

—Before purchasing Real Estate or insuring your life, see Rand Bros.

A number of correspondents are crowded out to-day. They will appear in due course.

—The fire alarm last night was caused by burning chimney, near the corner of Government and Fisgard streets.

—For a good fitting set of artificial teeth go to Dr. Hartman's dental parlors, Government street. Charges moderate.

—GOSNELL'S HOME-CURED BACON is now on cut at his store, Douglas and Cormorant streets.

—Everybody to know that the LONDON BAZAAR is the cheapest place in the province for fancy goods, toys, glassware, &c.

—A grand skating carnival will be held at the Yates street roller rink to-night, commencing at 7:30 p. m. Admission 25 cents, use of skates 25 cents.

—In the published judgment of the Hon. Mr. Justice Gray, read *injury* for inquiry in the clause wherein His Lordship refers to the fact that *something* of a pecuniary loss must be known.

—Mr. W. P. Boyd, the well known and popular dry goods merchant of Seattle was married last Monday to Miss Hereley, of the Dalles, Oregon, where the ceremony took place.

—Consignees by the Olympian to-day: V Gill, A Cowan, C R King, C W Thompson, F N Hibben, H Mansell, P McQuade & Son, J B Lovell, C McDonough, L Wittle.

—The Princess Louise brought 130 bales of hay, Baker & Son; 43 bales hay, T Earle; 100 sacks oats, E H Babbett; 85 packages household goods, John Trutch; 5 cases sundries, D O Mills, and a large quantity of general freight.

—Frank Davis, who was charged with attempting to gain an entrance into the Pritchard House, with burglarious intentions, was discharged. The evidence of Mr. Simpson, the night bartender, exculpated the prisoner from any wrong intentions.

—A report was current this afternoon on the streets that the steamer Dunsmuir had not arrived at Nanaimo, and was a day or more overdue. On enquiry this was found to be without foundation. The steamer was at Nanaimo when the Amelia left this morning.

—Messrs. Woods, Turner & Gamble are advertising for tenders for the erection of a bell tower and the hanging of a peal of bells in New Westminster. Tenders to be received up to Wednesday, 2nd December.

—The annual dinner of the St. Andrew's and Caledonian Societies of this city will take place in the Driard House on Monday evening, Nov. 30. The forthcoming event will no doubt be equal in every respect to its predecessors. No effort is being spared to make the occasion a pleasant one.

—To strangers the fact that ripe raspberries are to be found in several gardens in Victoria at present, almost appears paradoxical. Nevertheless such is the fact, for this afternoon Mr. W. A. Franklin laid on our table a sample, the berries of which were well formed and perfectly ripe.

—There was some appropriateness in the last spike of the C. P. R. having been driven at Craigellachie, the meaning of which word is "standfast." It is the motto of the Scotch House of Grant, who were in the habit of standing fast before the enemy; and, doubtless, the C. P. R. will do the same.

—In the "learned counsel's" report of Capt. Moore's trial yesterday, he concludes by saying: "Prisoner was committed to prison in default of bail." In another column the reporter says: He "was admitted to bail in the sum of $8000, which was furnished." Which of the *Colonist* writers is to be believed?

—When thieves fall out honest men, it is said, may expect to get their own. The subsidized organ of the government here, and its prototype in New Westminster, are red hot after each other just now. The *Colonist* undoubtedly has caught a Roland for its Oliver, for the *Columbian* administers to the ancient dame of government a well merited castigation.

THE NORTHERN PACIFIC.

Mr. H. C. Davis, Assistant General Passenger Agent of the Northern Pacific railway, from St. Paul, and Mr. W. F. Carson, the western General Travelling Agent of the same line, Portland, arrived in the city this morning. Mr. Carson is a frequent visitor, but this is Mr. Davis' first visit to the Queen city of the Northwest. Much as he had heard in its praise, and great as were his expectations, he admits an agreeable disappointment with what he has already observed of Victoria. From Mr. Davis we learn that traffic on the entire system of the Northern Pacific railway is now larger than ever, notwithstanding the fact that there is a very perceptible falling off in cattle and grain shipments. The revenue for the last month was the largest the company have had since the line was opened. The company's lands are being taken up rapidly by foreign immigrants, as well as by people from the Eastern States and the Canadas. The harvest of the past season was an abundant one. Grain is being moved at a very low rate, both to the east and to the Pacific coast. The extension of the line to Bute city is to be undertaken so soon as the surveys have been completed, while the Cascade division is being completed with as great a rapidity as the resources of the company will warrant. The completion of this route will materially lessen the distance between Victoria and the east, as well as effect a saving in time and cost of transportation. The efficiency of the company's equipment is being maintained by new additions being constantly added. It is the determination of the management to which, at all hazards, the composition the Northern Pacific has attained in a remarkably short time, to popularize the company with the traveling community. It is possible that both Messrs. Davis and Carson will visit the mainland to-morrow.

THE DRAMA.

The "Red Pocket Book" was produced at the Victoria Theatre last evening by the Bert Dramatic Company, and was well presented; the different characters being strongly taken. The audience, however, was small owing to the carnival and other counter attractions. To-night will be produced Bronson Howard's great comedy drama "The Banker's Daughter," cast to the full strength of the company, when it is to be hoped that our theatre goers will accord the company all the patronage which they so well deserve.

For Great Bargains in Choice Millinery go to the City House, where the entire Stock is being sold below cost.

A WELCOME VISITOR.

Mr. Horace Macdougall, of Winnipeg, Pronounces Our City a Paradise.

Amongst the arrivals by the Olympian to-day from the east was Mr. Horace Macdougall, Superintendent of the Northwest Telegraph Company, Winnipeg, in which city that gentleman has resided for the last fourteen years. Mr. Macdougall has observed that city expand its borders from the mere hamlet it was a few years ago, to a city of present great importance, and assured of a future growth, the extent of which no one can foretell. That gentleman has been associated with many of the city's enterprises and is confident that the city having passed through her dark days, the silver lining of better ones are discernible. The telegraph system in that country has assumed gigantic proportions since Mr. Horace Macdougall's advent. Extensions are constantly being made to meet the requirements of the public. He reports a considerable falling off in passenger traffic via the St. Paul route to eastern Canada in consequence of the completion of the C. P. R. through line. The wreck of the Alguma, it is feared, will militate against passenger traffic by the lakes. He describes the C. P. R. steamers as magnificent ones, and general regret was expressed for the fearful disaster. When he left Winnipeg the weather was disagreeable; the river beginning to freeze and sleighing unusually looked for. He expressed surprise with the climate of this city, and on being assured that to-day was a fair average of the weather generally experienced here till next April exclaimed "what a paradise you have, truly." Mr. Macdougall's many friends in this city are pleased to see him and that his health is so good. His visit will be a brief one and may not be extended to the mainland on this occasion.

THE LAST OF THE PACK.

Messrs. Welch, Bithet & Co. to-day shipped per Oregon of the Pacific via San Francisco, for Sydney, N. S. W., a quantity of salmon in cases and barrels. These were from the Laidlaw cannery at the Delta, and from the Skeena Packing Company. This, it is believed, closes up the season's business, so far as the British Columbia canneries are concerned. It is said the supply is now confined to a few cases—that the market in fact is completely cleared. Prices are still advancing; 22s. is being readily offered in London, but owners are holding for 23s., which they are likely to get in a few weeks. The season opened with quotations at 15s. Eastern Canadian dealers are reported to be short in stock; they were skeptical as to an advance likely to take place. The total pack this year is estimated at 103,130 cases, at least 33,000 cases less than that of last year. The financial result of the season's operations is said to be satisfactory to the packers.

THE K. M. & S. COMPANY.

The *Colonist* said this morning that the Kootenay company, known as the "Eastern," had got a quantity of ore ready for smelting, and proposed to put up smelting works next year. From gentlemen who arrived in the city to-day, we learn that this was, to say the least, a highly colored statement. The Kootenay Mining and Smelting Company has done no work except what the law compelled them to do before they could get a patent. They have no ore ready for smelting, and there is little or no faith in their intentions to erect works. The great want of the district is men of means and energy. It is undoubtedly the richest mineral country on the continent, and will yet yield enormous fortunes to the capitalists who take hold in earnest.

A WORTHY YOUNG MAN.

Mr. Alex. Munro, who for many years has occupied a position in the Bank of British North America in this city, has been promoted to a responsible position in that bank in San Francisco, and left to-day by the Queen of the Pacific to assume the duties of his office. He succeeds Mr. John Cran, for some time in the bank here, who has been transferred to the Brantford, Ont., agency. Mr. Munro is one of our most deserving and estimable young men, and his many friends in the city and throughout the province will be pleased to hear of his promotion, knowing full well that Mr. Munro, at all times, will give a good account of himself. The best wishes of a wide circle of friends accompany him.

THE VICTORIA THEATRE.

The correspondent signing himself "A Citizen" in Tuesday's TIMES, writes strangely what took place in the court as to Mr. Apponyi's evidence, should have further stated that Mr. Apponyi declared that not until the division wall was to be interfered with need there be any apprehension of danger. That gentleman contends that strong as is the wall, if the owner of the adjacent property, on Douglas street, should attempt to utilize the wall as a party one, and cut holes therein for joints, &c., it would be greatly weakened. Till then there need not be the slightest possibility of a doubt as to the safety of the wal'.

NOT FOR SEARCHING.

People naturally expected that after the *Colonist* having published a synopsis of the ex-U. S. Senator Mitchell scandal that he would have been defeated in his candidature for the same office, "by a large majority." It now turns out that the influence of our morning contemporary is not as far-reaching as its editor would have its readers believe, for Mitchell was elected last night on the third ballot as U. S. Senator for Oregon.

CRACKSMEN AT WORK.

Burglars have lately, on two different occasions, entered the office of the Dominion Saw Mill Company, situated on Store street, ransacked the place in search of valuables, and stole a quantity of clothing. Something ought to be done by the municipal authorities to ferret out the thieves. This kind of thing is becoming monotonous.

FROM KOOTENAY.

There arrived in the city to-day from Kootenay: W. Perkins, G. Reader, Jas. Tallyard Charles Molson, S. Smith, E. Shook and J. Hunley. Most of these gentlemen are witnesses on either side of the case against Sproal, who is charged with the murder of Hammill, and whose trial will take place at the assizes next week.

RAILS FOR THE ISLAND RAILWAY.

Ship L. E. Tucker, Capt. Greenleaf, arrived from Cardiff, Wales, on Monday, after a passage of 105 days from the Pelorus, and moored at Oyster Harbor last night, with a cargo of 2030 tons steel rails for the Island railway.

Ayer's Sarsaparilla works directly and promptly, to purify and enrich the blood, improve the appetite, strengthen the nerves and brace up the system. It is in the truest sense an alterative medicine. Every invalid should give it a trial.

If people troubled with colds, would take Ayer's Cherry Pectoral before going to church or places of entertainment, they would avoid coughing, greatly to the comfort of both speakers and hearers. Public speakers and singers find that the Pectoral wonderfully increases the power and flexibility of the voice.

MUNROE MILLER, The Other Binder, Steam Book and Job Printer, Johnson Street, near Broad.

POLICE COURT.

(Before E. Johnson, S. M.)

Lilly Williams, drunk; fined $5 or one week.

NOW IS A CHURCH.

J. Isaacs, assaulting H. Morris. T. Davie for prosecution, J. R. Hett for defence.

H. Morris, sworn: Was attending a vestry meeting of the congregation of Emanuel a few mornings ago; Mr. Isaacs was present. A discussion arose about putting in a musical instrument, when Mr. Isaacs' partner said the synagogue was costing too much money. I told him it had not cost him anything; he assaulted me, catching me by the coat and tearing the lappel.

Cross-examined: Had been asked to attend the meeting by Mr. J. L. Levy; don't know if he held any office. I am a member of the congregation Emanuel. Have not paid any dues for a year and a half; have not been asked for any.

Frank Sylvester, sworn: I was one of the organizers of the congregation, but can't say that I am a member now, from the way things are mixed. Was present last Sunday afternoon at the vestry meeting, and saw Mr. Isaacs assault Mr. Morris. Saw his hand raised to strike the blow, but was so ashamed of the matter that I did not care to look at it.

Joseph L. Levy, sworn: Saw the assault on Sunday afternoon. Am a member of the congregation; did not see Mr. Morris do anything out of the way.

Aaron Lewis, sworn: Was at the meeting on Sunday and witnessed the assault complained of; it was the same as that described by Mr. Morris.

Cross-examined:—Mr. Isaacs hit him once and then got hold of his coat collar.

Mr. J. Isaacs, the defendant, sworn:—Am chairman of the board of trustees of the congregation of Emanuel. There was a vestry meeting held on Sunday afternoon, and I was chairman *pro tem.* at that time. When the meeting was called to order, Mr. L. Lewis was in the chair, and Mr. Morris disturbed the meeting by pounding with his umbrella. He continued making a noise and I told him if he did not keep quiet I would put him out. He raised his hands and I caught him by the lappel of the coat. I did not strike him. He was afterwards ejected. Mr. Morris is not a member of the congregation; he was expelled years ago.

Charles Levy, sworn:—Am a member and was present last Sunday. I saw Mr. Morris behaving in a most shameful manner. He seemed to forget where he was at the time. Mr. Morris made a loud noise with his umbrella, and was told to keep quiet. He flew up like a little tiger and Mr. Isaacs took hold of his collar; another man put Mr. Morris out.

J. Gutmann, sworn:—Saw the disturbance last Sunday. Some person made a remark during the discussion, when Mr. Morris shouted "it is a lie, it is a lie." He had previously behaved himself in a very unruly manner, stamping with his umbrella. I carried him out.

Morris Moss, sworn:—Was present on Sunday afternoon. I was acting as Secretary. Parties were acting in a very unseemly manner, stamping on the floor. During the disturbance Mr. Isaacs had hold of Mr. Morris' coat, and the latter was shaking his fist in Mr. Isaac's face. Herman Morris is not a member of the congregation.

The case was dismissed, each party to pay his own costs.

SUNDAY THEATRICALS.

Boy Gee Tong and Yow Tin Lock, of the Chinese Theatre, charged with permitting a theatrical performance on Sunday. Mr. Walls, for the defence, said that if the prosecution was withdrawn, there would be no performances, either of a religious or theatrical character, occur again. Case withdrawn on payment of costs.

STOLEN PROPERTY.

Nathan Pointer, in possession of a coat stolen from Michael Conlan, knowing the same to have been stolen. Officer Walker testified to finding the coat in defendant's store, and that Mr. Pointer said he had bought it for $1 50. Since then Mr. Pointer had asked me to pay him the $1 50. He described the man who had sold him the coat as dressed in dark clothes and without whiskers. To Mr. Gannaway the officer said he never knew Mr. Pointer to assist the police in finding anything; he always gave names of persons who could not be found. Mr. Conlan identified the coat, and said it was worth $18. It was stolen two weeks ago from his room at the Brunswick Hotel. He saw it afterwards hanging in Pointer's store door. The case was then adjourned until Saturday.

KOOTENAY LAKE MINES.

What Mr. Tallyard has to Say about the Wonderful Richness of this District.

Messrs. Perkins, Reader and Tallyard arrived to-day from Kootenay. All are old miners and express confidence in the mineral resources of the Kootenay Lake country provided better means of access are provided. The present route is from Kootenai, on the Northern Pacific five miles from Sand Point, by wagon road 35 miles to the Kootenay river, thence 140 miles by boat. The rate for freight from Kootenai station to Kootenay Lake is three cents per pound. Mr. Tallyard says that the Kootenay Lake district contains a larger

DEPOSIT OF GALENA

than any other galena district in the world, while the ore averages more than the ores in the famous Butte District; the average assay in the Butte district being twelve ounces while in the Kootenay it is fully twenty ounces. It only requires enterprise and capital to prosecute developments. This district would become the richest mining camp in the country. The K. M. and S. Company have spent about $1600 and laid off, no only work done by them this year, being a drive of 80 feet on one lead. Many of the miners are averse to developing to any extent until the

ADSWORTH CO.'S LAND GRANT

is located, for fear that company may take away their claims. As evidence of the wonderful richness of this district, Mr. Tallyard cites a case of an American miner, a Mr. Hartford, who came in last fall and on a drive of only 40 feet has developed a fine body of galena, which assays 49 ounces. This claim is a true fissure leak, and shows enough mineral to warrant the erection of a mill. Mr. Hartford has named the lead a discovery, the claim and calls his claim the Tenderfoot Claim. A Mr. Wheeler has also a claim on the same lead, which assays 55½ ounces in silver and $4 in gold. There are about 80 claims altogether on the lake, which are represented. Given the advantage of easy access and cheap freights, with a fair proportion of capital, the Kootenay Lake mining district would soon become remarkably productive.

MARINE.

The Viola leaves in a few days for Portland, where she will load with wheat for the United Kingdom.

The Harvest Home, out from Liverpool 153 days for this port is now due and expected daily.

The City of Brooklyn went south yesterday with a cargo of lumber from Moodyville for Melbourne, Australia.

The Pilot yesterday towed the Fanny Tucker to Oyster Harbor. This ship has 2,030 tons iron for the Island Railway.

GONE TO SAN FRANCISCO.

The Queen of the Pacific sailed at noon to-day for San Francisco. The following cabin passengers are on board from Victoria: Geo Hamilton, C Anderson and wife, Mr and Mrs A J McLellan, D S Gray, J G Hantie and wife, Mrs Chapman, A Munro, E Dubury, Jas Wilcox, E H Bamsted, B Moat, T Martin and wife, M Fitzgerald, W T Porter, F Dodge, Mrs Smith, Mrs W R Clarke, Henry Carroll, E Bloomingdale, S Waterfall, A Murphy, J E Jordan, J K Barker, G B Gordon, J A McCrae, Henry Stranger, H A Goets, J Greer. A large number also went in the steerage.

VANCOUVER.

On Coal Harbor, the Terminus of the Canadian Pacific Railway.

Personal inspection and reports of Coal Harbor lands, made on application, contracts for clearing land negotiated and superintended. Large lists of most central properties and plans of townsite on application. Parties living at a distance buying through us will have the advantage of our personal inspection and report. Intending investors should come to Vancouver, when we will take pleasure in driving them over the principal roads and showing them over the townsite. We have established a free reading room for use of strangers and shall be glad if all such will make use of same on arrival here. Correspondence solicited.

Address

F. C. INNES & Co.,
Real Estate Brokers, Vancouver, Burrard Inlet, British Columbia.

FOR THE FRIENDS ABROAD.

We have been shown some very pretty hand painted Xmas cards of B. C. scenery by Messrs. J. B. Ferguson & Co. For artistic taste and execution they are the finest we have seen, and just the thing to send to the friends abroad. Go and see them.

ANOTHER MAN HELD UP

At the entrance of the C. P. R. Dining Hall, Cor. Douglas and Johnson Sts., read our Bill of Fare, went up to dinner and had, he claims, the best two-bit meal in town, and still there is room.

QUICK FREIGHT.

Neufelder & Ross' complete assortment of Christmas fruits, arrived via Northern Pacific Railway in thirty-six days.

The Muscatelle, Sultana and Valencia raisins received by Neufelder & Ross far surpass those of last year.

The display of Christmas fruits at Neufelder & Ross', shows that Victoria still keeps its reputation for good cheer.

Always ahead.—Fell & Co. have already received a supply of this season's fruit.
